The Rally complies with the general provisions of the Fédération Internationale des Véhicules Anciens (F.I.V.A.). It is in no way a sporting event. Its purpose is to allow collectors of vintage vehicles to drive their vehicles in optimal safety conditions and to highlight, by showcasing and bringing to life, the industrial heritage that these vehicles constitute. It also promotes the discovery of the landscape, architectural, cultural and historical heritage of our regions. The Rally is organised so that each participant, whatever the age and the capacity of their vehicle, can complete the route in good safety conditions.

It takes place on the open road, in compliance with the Highway Code, with the aim of not disturbing the circulation of other road users or the tranquility of local residents and will not give rise to any classification based on navigation and/or regularity.

The departure of participants is staggered so as not to disrupt road traffic.
